

Product code:

POLAR HV BIB & BRACE TROUSERS

Introducing the POLAR HV BIB & BRACE TROUSERS, insulated high-visibility work trousers designed to provide superior warmth, waterproof protection, and durability in harsh marine, offshore, and industrial environments. Engineered for cold-weather operations, these heavy-duty trousers deliver reliable comfort and protection during demanding outdoor work conditions. Manufactured from durable polyester Oxford fabric with PU membrane technology, the POLAR HV BIB & BRACE TROUSERS offer excellent resistance against wind, rain, and sea spray while maintaining wearer comfort throughout extended shifts. The thick thermal insulation and heat-retaining construction help keep the body warm in freezing temperatures and severe weather conditions.

High-visibility panels with reflective striping improve safety and visibility during low-light marine and dockside operations. Adjustable elastic braces provide a secure and ergonomic fit, while the raised bib construction offers additional protection against wind and cold exposure.

Designed for unrestricted movement and practical everyday use, the trousers feature spacious cargo pockets, reinforced lower leg areas, and adjustable leg openings for easy use with safety footwear and marine boots.

Origin - Designed for professional marine and industrial use

Product code:

POLAR HV BIB & BRACE TROUSERS

FEATURES

Waterproof & Windproof Protection

PU membrane fabric protects against rain, wind, and harsh marine weather.

Thermal Insulation

Thick insulated construction provides reliable warmth in cold environments.

High-Visibility Safety

Reflective striping improves visibility during low-light operations.

Adjustable Bib & Braces

Elastic suspenders ensure a secure and comfortable ergonomic fit.

Durable Workwear Construction

Oxford fabric enhances durability for demanding industrial and marine use.

Practical Storage

Spacious cargo pockets provide secure storage for tools and essentials.

TECHNICAL SPECIFICATIONS

Outer Fabric: 100% Polyester Oxford + PU Membrane

Waterproof & windproof construction

Thermal insulated lining

Adjustable elastic braces

Raised bib front design

Reflective striping

Cargo storage pockets

Reinforced lower leg sections

Adjustable leg openings

Colour: Yellow/Navy

CE

Conforms to EN ISO 13688

Recommended Applications

Marine & Offshore Operations

Shipyards & Port Services

Dockside Logistics

Offshore Maintenance

Outdoor Industrial Work

Winter Operations
